Syllabus2210

Many of the materials we handle each day are products of organic chemistry. Living systems are also organic in nature, so organic chemistry gives a foundation for understanding chemical reactions in living organisms. The two-course sequence (Organic I & II) is viewed as a unit and is an introduction to organic chemistry.

General Chemistry I Laboratory Manual

General Chemistry I Laboratory Manual Winter term 2011-12 Lab begins the first week of classes Required Text for CHEM 122 (All sections) You must bring this lab manual, plus safety glasses, to the first lab period. Safety glasses are required, and they are sold at the bookstore.

CHM 2210C Lab Manual Organic Chemistry I

The lab notebook is used as a legal document detailing everything that occurred in the lab. You also use it in lab to keep track of what you have done and what you have to do. It is therefore very important to prepare your notebook well and take meticulous notes. Students are required to purchase a Lab Notebook (NCR paper) from the bookstore.
